ABOUT ME

I am Front-End developer with more than 2 years of experience working on various projects through different companies. I am specialized in frontend development, maintenance, bug fixing and web optimization.

The best features in my work as an engineer are that I strictly follow the requirements of the client, strictly meet the deadlines, I am always available, I give suggestions for improvements if necessary, I work only in a safe and verified environment. I can very easily adjust to working in a team. On the other hand, I work very well as an individual. I am very communicative and I ask everything in detail in time before starting work.

I do frontend development, especially Angular. I have more than 2 years of experience in the Angular framework. This includes experience and knowledge in HTML, CSS, SCCS, Bootstrap. On the other hand, I am familiar with backend technologies, especially .NET Core and MSSQL as a database.

Happy to work on new creative ideas and projects, with my knowledge and experience your success is guaranteed.

WORK EXPERIENCE

[01/02/2021 – 04/06/2021] **Frontend Developer**

Eduati

City: London
Main activities and responsibilities:
Working in this position as a frontend developer I gained a lot of experience and knowledge. There I worked on the development of a landing page, and I maintained the already existing system. In addition, I worked on the development of an E-learning platform consisted of a student, employer side and course provider. Our team worked with the scrum methodology, and we used Jira as a project management tool.
